

↖ Strategic Priority #1

Lead on kidney health priorities worldwide,
and via local networks, through advocacy and research

GOALS

- 1.1. Elevate kidney health on global healthcare agendas by advocating for universal health coverage as well as evidence-based strategies for early-detection and prevention of kidney disease.
- 1.2. Grow the capacity of the global kidney community to deliver evidence-based early-detection and prevention strategies, clinical trials, and access to novel technologies and treatments.
- 1.3. Impact international health policy by maintaining consistent communication and collaboration with the WHO, UN and other key stakeholders.
- 1.4. Increase capacity for sustainable kidney disease surveillance in low-and-middle income countries for optimal clinical care.
- 1.5. Include perspectives of people with kidney disease in ISN activities.

↖ Strategic Priority #2

Drive innovative kidney education and professional development worldwide

GOALS

- 2.1. Build clinical capacity and knowledge needed to respond to kidney disease, its multi-morbidities and the variability of care around the globe for better patient care.
- 2.2. Develop innovative formats to deliver online and onsite education, fostering links between education, advocacy and research.
- 2.3. Promote evidence-based prevention and early-detection programs and multidisciplinary approach for improved patient outcomes.
- 2.4. Facilitate peer-to-peer interactions around the world to foster the sharing and building of expertise, and mutual learning partnerships.
- 2.5. Maintain, grow and leverage the quality, reputation and impact of ISN journals.

↖ Strategic Priority #3

Leverage the ISN's international community and local networks for optimal kidney care

GOALS

- 3.1. Augment the worldwide impact of ISN activities through effective global and local collaborations.
- 3.2. Deliver in-person and virtual events to meet the evolving ecosystems of scientific and educational events.
- 3.3. Champion strong collaborations with collective and affiliated societies, as well as external partners, for better kidney care worldwide.
- 3.4. Involve, recognize and empower early-career professionals across all ISN activities and support them to grow as global leaders in their fields.
- 3.5. Meet members where they are: strive to align ISN activities to the needs of its diverse membership.

➤ Strategic Priority #4

Champion organizational agility and resilience for a sustainable future

GOALS

- 4.1. Secure long-term financial sustainability, strengthen existing partnerships and income sources, and develop new ones.
- 4.2. Maintain clear and transparent governance structures for efficient decision-making and sharing of expertise across the society.
- 4.3. Maintain and champion diversity, equity, and inclusion (DEI) across our activities, structures and teams.
- 4.4. Deploy multi-faceted and targeted communications reflecting ISN's global reach.
- 4.5. Develop environmentally responsible practices for ISN operations and activities, establishing the ISN as a leader in kidney care sustainability.
- 4.6. Develop a digital infrastructure enabling execution of long-term objectives.
