He is a member and president of the Association of Nephrology, Dialysis, and Transplantation of Bosnia and Herzegovina. Member of the Kidney Transplantation Team of CCU Sarajevo, full member ERA, ASN, ISN, and ESOT.

Candidate's Statement

Prof. Damir Rebić, MD, PhD

Clinical Center University of Sarajevo

Bosnia and Herzegovina

My name is Damir Rebić and I am a full Professor of Nephrology and Head of the Department for Nephrology at the Clinical Center University of Sarajevo. I am the President of the Society of NDT of Bosnia and Herzegovina and a member of the board of BANTAO. I founded a national educational network in collaboration with ERA and ESOT for all members of the Bosnian Nephrology Association.

It is my great honor and privilege to be a candidate for the position of Deputy Chair at the ISN Board for Central and Eastern Europe.

As a Deputy Chair, I will focus on the collaboration between National Societies of the Region developing educational strategies by organizing more CME courses in all fields of nephrology. The establishment of collaboration between National Societies and Patients' Associations is of immense importance, I am going to support current and future initiatives by ISN strongly.

Finally, I am planning to establish contacts between ISN members of the Region, Medical Schools, and students' associations to introduce nephrology as an interesting specialty, because the number of junior nephrologists is being constantly reduced lately in many countries. Also, I will promote ISN membership among nephrologists in the Region.

Sincerely,

Prof Damir Rebić
