

### Short Bio/CV

Family Name: ROSA DIEZ  
First Name: Guillermo  
Date of Birth: July 19<sup>th</sup>, 1966  
Country: República Argentina  
Contacts: Phone: +5491145655481;  
Email: guillermo.rosadiez@hospitalitaliano.org.ar

### Titles

Physician, Graduated with honors. Medicine, University Buenos Aires, Argentina (UBA).  
Specialist in Nephrology (UBA).  
Medical Doctor in Health Sciences. University Institute Hospital Italiano Buenos Aires (IUHI)  
Magister in Clinical Effectiveness (UBA).  
Specialist in Ultrasonography. Argentinean Society Ultrasonography.  
Associated Professor Medicine (UBA).  
Professor of Nephrology(IUHI).  
Director of Nephrology specialist course (UBA).

### Scientific Societies - Memberships and Activities

Past President of Argentinean Society of Nephrology 2020-2022  
Co-Coordinator of Latinoamerican Registry of Dialysis and Trasplantation (SLANH).  
Member of SHARing Expertise to support the set-up of Renal Registries (SharE-RR), and  
Member of Latinoamerican Board (ISN).

### Summary

Dr. Prof. Guillermo Javier ROSA DIEZ graduated with honors from the University of Buenos Aires (UBA), Argentina; completed the residence the postgraduate in Nephrology in Hospital Italiano de Buenos Aires (HIBA) and UBA. He has a postgraduate degree in Clinical Effectiveness (UBA) and a Doctorate in Health Sciences (University Institute of HIBA). Associate Professor of the University Institute School of Medicine of HIBA and Associate Professor of UBA. Director of the career of doctors specializing in nephrology at the UBA (HIBA Headquarters).

He was director of the nephrology division (2012-2022), and currently works as a staff doctor. He was president of the Nephrological Association of Buenos Aires (2012), Argentine Society of Nephrology (SAN, 2020-2022) and Vice-President of Region 1 of SLANH (2022-2024).

He is Co-Coordinator of the Latin American Registry of Dialysis and Transplantation (RLADRTR) and member of the Argentine Registry of Dialysis and Transplantation (SAN-INCUCAI) since 2012. He has performed as Temporary Advisor of the Pan American Health Organization (PAHO) as Training and as Coordinator of the National Dialysis and Renal Transplant Registry in Latinamerica (2014-2017). Past Fellow of ISN (2000, Italy), he was ambassador of ISN Educational Ambassador Program. He's a member of the ISN SharE-RR team on

behalf of SLANH since 2018, member of the Council of LARB of ISN, ISN Regional Training Center Liaison Officer (HIBA) and participates in the ISN Renal Sister Program.

He has participated as president, chair and speaker in national, regional and international scientific meetings. He has been a speaker at national and international conferences (more than 300). He has published in books (35), review articles, reports, or complete scientific articles in regional (151) and extra-regional indexed journals (100), especially in CKD and AKI.

He has participated as an associate researcher or principal investigator in independent research and research associated with the industry, with the respective publication.

The role during the COVID pandemic should be highlighted, which included activities to protect and immunization protocols in patients with CKD, as well as the registration, with the respective publication in indexed journals.

He has been president of the local organizing committee of the recent world congress of nephrology, in April 2024 in Buenos Aires, Argentina.

He is currently editor-in-chief of the journal "Nefrologia Latinoamericana", the official organ of the Latin American Society of Nephrology and Hypertension.

---

## Candidate's Statement

Buenos Aires, September 1, 2024

To ISN members

My proposal as Vice President of the ISN Latin America Regional Board is to promote and work on with the goal of achieving equitable access to sustainable renal health for people in Latin America. I am convinced that the teamwork is the only way to achieve these goals. My previous experience working with the joint PAHO-SLANH is the proof of this.

It is necessary to train young doctors interested not only as nephrologists, but as trainers and educators on primary care colleagues to achieve the necessary transformation in renal health in our region., Regional education centers and network communication between them must be promoted to this goal, as well as meetings to train in pending subjects such as interventional nephrology (renal biopsy) and peritoneal dialysis. I will provide my experience as lead a regional reference training center to replicate it throughout the region. Latin America is a region with few publications in indexed journals and in clinical and epidemiological research. Communication and participation with nephrology centers in the First world will improve this pending issue.

Latin America is a region with trained and passionate nephrologists, we have the challenge of putting together the team to achieve the necessary changes!

Dr. Guillermo Rosa Diez
