Candidate's Statement

Dear Colleagues,

I am honored to submit my candidacy for the position of Leader and Councillor on the ISN Regional NIS Board. My mission is to enhance nephrology services in low-income countries through the following initiatives:

1. **Regional Board Consensus Guidelines:** Develop and publish 3-4 comprehensive guidelines for adult and pediatric nephrology, focusing on the treatment of nephrotic syndrome, management of urinary tract infections, renoprotection in chronic kidney disease, and a fourth topic based on community needs.
2. **Pathomorphology Advisory Group:** Establish a group to provide expert opinions from three pathomorphologists using a cloud-based service, ensuring consistent and high-quality diagnostics.
3. **Educational Webinars:** Organize 4-6 webinars annually for both adult and pediatric nephrologists to promote knowledge sharing and professional development.
4. **Unified Information Resource:** Create a resource with newsletters, updates on guidelines, conference information, and an online forum for real-time consultation and support.
5. **Advocacy for Financial Support:** Lobby for funding to support these initiatives and facilitate participation in ISN congresses, enhancing our region's visibility and influence globally.

These initiatives will elevate nephrology care, promote professional growth, and strengthen our community's collaboration. I am committed to these goals and ask for your support.

Sincerely,

D. Ivanov
